

From the Achieve sign-in page

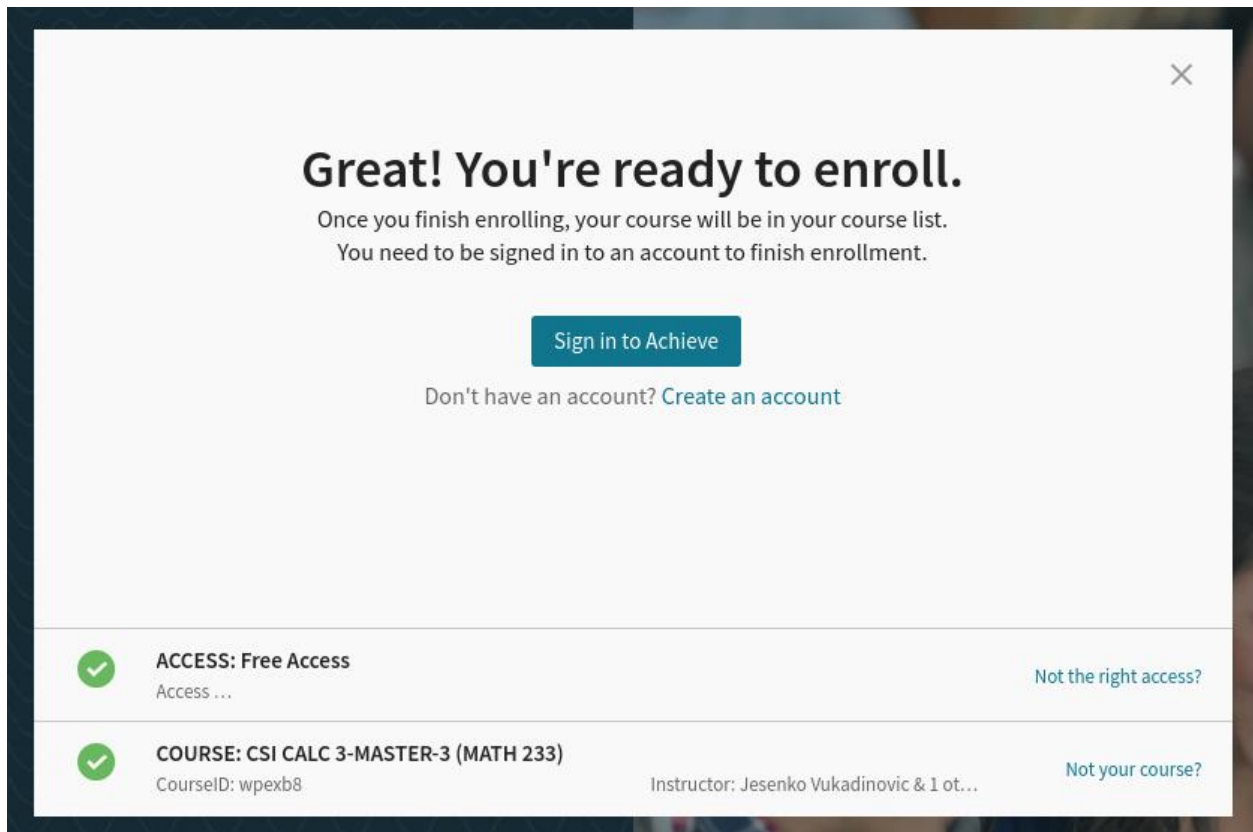

Go to achieve.macmillanlearning.com and click the tile that says **I Need to Enroll in a Course**.

In the box that appears, Enter access code: **7YP3W7LJ** (not the one shown in the screenshot below)

You will be shown the course that aligns with that code and prompted to either modify that information, sign in, or create an account.

The screenshot shows a white modal window with a dark border. At the top right is a close button (X). The main heading is "Great! You're ready to enroll." followed by two lines of text: "Once you finish enrolling, your course will be in your course list." and "You need to be signed in to an account to finish enrollment." Below this is a teal button labeled "Sign in to Achieve". Underneath the button is the text "Don't have an account? [Create an account](#)". At the bottom, there are two rows of information, each starting with a green checkmark icon. The first row shows "ACCESS: Free Access" with a truncated "Access ..." and a link "Not the right access?". The second row shows "COURSE: CSI CALC 3-MASTER-3 (MATH 233)" with "CourseID: wpexb8" and "Instructor: Jesenko Vukadinovic & 1 ot..." followed by a link "Not your course?".

It should show you the screen above and the course called:

COURSE: CSI CALC 3-MASTER-3 (MATH 233)

Sign in or create an account to enroll in our Calculus III section on Achieve.
