

Math 123: COLLEGE ALGEBRA AND TRIGONOMETRY

Fall 2021, Section ...

Instructor:

Email Address:

Office Hours:

Lecture:

Course Description: 4 hours; 4 credits; Topics in algebra, including inequalities, logarithmic, exponential, trigonometric functions, graphs and equations, inverse functions, elements of analytic geometry. Introduction to the use of graphing calculators. Prerequisite MTH 30 or Co-requisite MTH 35; or an appropriate math placement; or permission of the Department of Mathematics.

Text: Stewart, Redlin, Watson, Precalculus, 7th Edition with WebAssign. Brooks/Cole, Cengage Learning (2015). ISBN# 978-1305071759

Calculator: A graphing calculator is required. The TI-84 is highly recommended.

Important: All assignments will be on Web Assign so each student will need to purchase the access as soon as possible and have it ready by the first day of classes

Grading Policy:

- 15% Homework
- 25% Quiz Average (the lowest one is dropped)
- 25% Midterm Exams
- 35% Final Exam

Web Assign assignments: Our WebAssign class key is :

All homework and quiz assignments will be posted and taken on Web Assign. There will be a midterm exam and a final exam that will be tentatively administered in person on campus. Homework assignments must be submitted through Web Assign by the listed due date. All other course assignments, including quizzes will take place during class time for a specific amount of time as scheduled by your teacher. The dates for the exams will be announced at least a week in advance. There will be *no* make-up exams and/or other assignments under any circumstances. If you miss an exam for a valid, well-documented reason, you may be excused and your remaining exams will be reweighted to account for the missed one.

No late submissions will be accepted under any circumstances, and no extensions will be granted. You may be excused from an assignment due to a real emergency that is shared with your professor by the assignment time and is documented by a written excuse.

Final Exam: There will be a comprehensive final exam at the end of the

semester. The final exam cannot be rescheduled. Missing the final exam will result in an F or WU grade for this class. Incomplete grade may be given by the discretion of your professor if all your other course work has a passing grade. In a case of INC you need to clear it as soon as possible by making the necessary arrangements with your professor.

Extra Credit: There will be *no* opportunities for extra credit in this class.

Attendance: Attendance will be recorded at the beginning of each lecture. Lateness and early departure will not be tolerated, and each late arrival or early departure will count as half an absence. Four or more unauthorized absences will result in a WU grade.

In general, the only acceptable excuses for missing class (including exams) are: serious illness, family/personal emergency, or religious observance. Appropriate documentation must be presented the day that you return to class, or else it will not be accepted.

Academic Integrity: Students are expected to uphold the CUNY Policy on Academic Integrity. Cheating on exams will not be tolerated, and will result, at minimum, in a grade of F for this course.

Student Accessibility: Qualified students with disabilities will be provided reasonable academic accommodations if determined eligible by the Center for Student Accessibility. Prior to granting disability accommodations in this course, the instructor must receive written verification of student's eligibility from the Center for Student Accessibility. It is the student's responsibility to initiate contact with the Center for Student Accessibility staff and to follow the established procedures for having the accommodation notice sent to the instructor.
